Teacher's Guide

- Review the **ch** sound before beginning the activity. Say each word from the word box aloud and have students repeat.
- Encourage students to read the entire sentence before choosing an answer. This builds meaning-based decision making, not guessing.
- For students who need additional support, cover part of the word box and reduce choices to two at a time.
- To extend learning, ask students to write one new sentence using a **ch** word not included in the box.
