Teacher's Guide

- Preview the **ch** blend before students begin. Say a few familiar ch words and emphasize the beginning sound.
- Encourage students to read each completed word aloud to check if it sounds real. If it does not sound like a familiar English word, they should leave it blank.
- For students who need more support, model the first one together by adding **ch** to air and reading chair.
- **Extension ideas:**
 - Have students write two sentences using their favorite ch words from the list.
 - Provide a set of mixed beginnings and endings and let students build as many real blend words as they can.
