

Name _____

Amount Match Answer Key

1. Match.
2. No Match. \$61.90.
3. Match.
4. No Match. \$281.40.
5. Match.
6. No Match. \$472.86.
7. Match.
8. No Match. \$725.03.
9. Match.
10. No Match. \$1,257.50.

Teacher's Guide

- Quick implementation: Remind students to compare both the dollar amount and the cents before deciding whether a pair matches.
- Differentiation: Have students underline the dollar portion and circle the cents portion in each pair before comparing.
- Differentiation: Let students needing support read each written amount aloud before converting it mentally to numbers.
- Engagement: Have students work as "bank auditors" and check their answers with a partner after completing all 12 items.
- Extension: Ask students to create four new amount pairs, including two matches and two mismatches, for a classmate to solve.
