Teacher's Guide

- Quick implementation: Review the sample check briefly, then have students complete all 10 matches independently.
- Differentiation: Allow students who need support to highlight each labeled part before matching the terms.
- Differentiation: Challenge advanced students to explain the purpose of three check parts after completing the activity.
- Engagement: Have students compare answers with a partner and resolve any differences by pointing to evidence on the check.
- Extension: Give students a blank sample check and ask them to label the same 10 parts without using the letter clues.
