2. City Bookstore.
3. \$87.60.
4. One hundred twenty-five and 08/100 dollars.
5. Swimming class.
6. Ethan Hall.

Teacher's Guide

- Quick implementation: Review the six main check fields, then have students use each clue to complete the single missing field.
- Differentiation: Have students underline the clue and matching check field before writing their answer.
- Differentiation: For additional challenge, cover the clue lines and ask students to determine whether enough information remains to complete each check.
- Engagement: Pair students after completion to compare each missing field and explain how they found it.
- Extension: Have students design one partially completed check with exactly one missing field for a classmate to solve.
