

Name _____

Tale Tracks Answer Key

Correct Sequence

- 1 - Goldilocks wandered into the forest and found the bears' house.
- 2 - Goldilocks tasted the porridge on the table.
- 3 - Goldilocks sat in the bears' chairs, breaking the smallest one.
- 4 - Goldilocks lay down in the beds, finally falling asleep in the smallest one.

Reflection Sample Answer

It is important to place events in the correct sequence because it helps the story make sense. If we mix up the order, we might misunderstand why things happen, like why the bears find Goldilocks in bed. Sequencing shows cause and effect, helping readers follow the story from beginning to end.

Teacher Notes

- Encourage students to justify their order choices by pointing to specific details in the passage.
- Differentiation tip: For younger or struggling readers, provide pictures of each event to sequence instead of text-only cards.
- Extension: Ask students to imagine what would happen if Goldilocks had chosen to leave after tasting the porridge, how would the story change?
