Cave Timeline

The Cave Expedition

Liam and Maya packed their flashlights, ropes, and snacks before heading toward the mountain cave. The trail was rocky, and they carefully climbed until they reached the dark cave entrance. Once inside, Maya turned on her flashlight and spotted glittering crystals on the walls. They went deeper and heard water dripping into a small underground pool. Suddenly, Liam noticed bats flying overhead, so the friends crouched low until the bats settled again. At last, after hours of exploring, they discovered an ancient carving on the cave wall, marking the end of their adventure.

Directions: Answer the questions below to build a timeline of events. Write your answers in complete sentences when possible.

1. What was the first thing Liam and Maya did before starting their adventure?

2. What happened once they reached the cave entrance?

3. What did Maya notice when she turned on her flashlight?

4. What event took place right after they saw the crystals?

5. What happened before the adventure ended with the carving?

6. What marked the conclusion of their adventure?
