

Name _____

Clue Word Hunt

Directions: Highlight or underline the order clue words in the passage. Then, answer the comprehension questions below in complete sentences.

The School Science Fair

First, Jordan carried his volcano model into the gym where the fair was being set up. Then, he placed it carefully on the table and arranged his poster beside it. Later, the judges walked by and asked him questions about how he built the volcano. After that, the model erupted when Jordan poured the vinegar mixture inside. Finally, Jordan smiled as he received a ribbon for his creative project.

1. What did Jordan do at the very beginning of the fair?

2. What happened right after he placed his volcano on the table?

3. Which event happened later, when the judges stopped at Jordan's table?

4. What was the final event of the passage?

5. How do the clue words help you follow the order of events?
