

Name _____

Paper Plane Sequence

How to Make a Paper Airplane

Here are some steps for making a paper airplane, but they are mixed up. Read them carefully, then reorganize them into the proper order.

- A. Fold the paper in half lengthwise and crease it, then open it again.
- B. Throw your airplane gently and watch it glide through the air.
- C. Take a sheet of paper and place it flat on a table.
- D. Fold the top corners down so they meet at the center crease, forming a point.
- E. Fold the paper in half along the original crease again, hiding the folds inside.
- F. Fold down each side to make the airplane's wings.

Directions: Write the correct step order by listing the letters in order (1-6). After organizing, explain in 2-3 sentences why it's important to follow directions in the right sequence.
