## 25 Ways Claude Helps Me

Claude AI isn't just good at answering questions - it's like having a tutor, writer, and idea factory all in one. In this activity, you'll give Claude 25 different tasks from all kinds of school subjects and everyday interests. After each one, read Claude's answer, jot down a short summary, and rate how challenging it was for you to understand: **Easy / Medium / Hard**. Get ready to see just how many ways a robot can help you think, learn, and create!

Ask Claude each of the following prompts. After reading its response, summarize it briefly and rate how easy or hard it was to understand.

1. Ask Claude to write a funny two-line poem about pizza.
2. Ask Claude to explain how photosynthesis works in five simple sentences.
3. Ask Claude to help you brainstorm three creative science fair ideas.
