A Beginner's Mission to Meet Claude AI Sample Answer Key

Step 1 - Say Hello - Prompt: "Hi Claude! Who are you?"

Sample Claude Response (may vary): "Hi there! I'm Claude, an AI assistant created by Anthropic. I can help people learn new things, write stories, and answer questions."

Expected student summary:

- Claude is an AI chatbot made to help people with questions and ideas.
- It was built by a company called Anthropic.

Step 2 - What Can You Do? - Prompt: "What kinds of things can you help people with?"

Sample Claude Response: "I can help explain information, brainstorm ideas, write essays or poems, summarize texts, and answer questions about many subjects."

Student might write: Help explain school topics. Write or edit stories and poems. Answer questions or help solve problems.

Goal: Student identifies at least three capabilities that show Claude's range - learning help, writing support, and idea generation.

Step 3 - Ask Something Fun - Example student question:

"Can you write a funny joke about homework?"

Sample Claude Response: "Why did the math book look sad? Because it had too many problems!"

Student's written answer: Claude made a clever joke that uses a pun about math problems.

Goal: Students practice curiosity, creative questioning, and summarizing AI output.

Step 4 - Reflect and React

1. **What surprised you about Claude's answers?**

"Claude's answers sounded polite and creative, not robotic like I expected."

2. **Did Claude sound like a person or more like a computer? Why?**

"Claude sounded like a person because it used full sentences and even told jokes."

3. **What's one thing you want to ask Claude next time?**

"I want to ask Claude how it learns to answer questions."

Goal: Students demonstrate curiosity, self-reflection, and awareness that Claude's responses are generated by an AI, not a human.
