Teacher's Guide

- Review what prefixes mean before starting. Focus on **re-**, **un-**, **pre-**, and **dis-**, since these appear most often in the riddles.
- Have students underline the clue words in each riddle (for example: do again, open, look before).
- For differentiation, provide a small word bank so emerging readers can match clues to possible answers.
- Encourage students to read riddles aloud. Hearing the language often makes the meaning clearer.
- For engagement, allow students to create one or two of their own prefix riddles and swap with a partner to solve.
- For extension, challenge students to illustrate one of the riddle answers or use it in a complete sentence.
