3. silliness
4. tinier
5. merriment
6. busiest
7. cloudier
8. angriness
9. coziest
10. spicier

Teacher's Guide

- This worksheet builds understanding of the **y to i spelling rule**, which helps students form correct suffix words when a base word ends in y.
- Support learners by reviewing the rule before starting: change y to i when adding a suffix that does not begin with i.
- Encourage on-level students to identify the base word, name the suffix, and justify why the spelling changed.
- For extension, ask students to create additional y ending words that follow the rule or write short sentences using at least three of the new words.
