

Name \_\_\_\_\_

## Drama vs. Science: Club Showdown!

**Instructions** - Read the dialogue between two students, **Lena** and **Drew**. Each blank has an adjective in parentheses. Your job is to complete the dialogue by writing the **correct comparative or superlative form** of the adjective.

**Lena:** Hey Drew! I think the Drama Club is way \_\_\_\_\_ (fun) than the Science Club. We laugh all the time during rehearsals!

**Drew:** Fun? Sure, but Science Club is the \_\_\_\_\_ (interesting) group in school. We even built a robot last week!

**Lena:** Robots are cool, but our plays are always the \_\_\_\_\_ (exciting) events of the year!

**Drew:** Maybe. But don't forget that science projects are usually \_\_\_\_\_ (challenging) than learning lines for a play.

**Lena:** That's true, but acting is \_\_\_\_\_ (creative) than doing lab work.

**Drew:** Still, I think Science Club has the \_\_\_\_\_ (smart) members in the whole school!

**Lena:** Haha! Maybe, but Drama Club is definitely the \_\_\_\_\_ (popular) club this semester. We have over 40 members!

**Drew:** Okay, I'll admit that your club is \_\_\_\_\_ (big) than ours. But ours is \_\_\_\_\_ (quiet)!

**Lena:** Quiet isn't always better! I like the \_\_\_\_\_ (loud) energy in the drama room.

**Drew:** I guess we'll have to agree that both clubs are the \_\_\_\_\_ (cool) in their own way!
