

Name _____

Recycling Reframed

Directions: Read the two articles below. Then, fill in the chart with details from both articles.

Articles on the Same Topic: Recycling

Article A: Recycling to Save Our Future

Recycling is one of the most powerful actions we can take to protect the Earth. Every bottle or can placed in the recycling bin makes a real difference. Without stronger efforts, landfills will overflow, and pollution will worsen. The time to act is now if we want a cleaner, safer future.

Article B: Recycling Can Be Fun!

Recycling isn't just good for the planet—it can also be enjoyable! Turning old jars into flower vases or creating art from scraps makes recycling creative and exciting. Families can turn recycling into games, like sorting bins or counting items. With a little imagination, saving the Earth can feel like play.
