

Name _____

Objective Rewrite

Directions: Read the biased compare and contrast paragraph. Rewrite it to make it academic, balanced, and objective. Remove exaggerated language and keep only clear, supportable comparisons and contrasts.

Textbooks are way better than online articles because they are obviously more trustworthy and reliable. Online articles are usually written by random people, so they are not as good or helpful. Textbooks give way more real information, while online articles sometimes feel rushed or lazy. Anyone who wants to actually learn would pick a textbook instead of an online article.

Rewrite the Paragraph: Write a new version that fairly explains **similarities and differences** without opinion-based language.
