

Name _____

Decimal Pairs Answer Key

1. J
2. I
3. E
4. C
5. A
6. L
7. F
8. D
9. B
10. H
11. G
12. K

Teacher's Guide

- Have students estimate whether each fraction is less than, equal to, or greater than one-half before matching.
- Encourage students to use benchmark fractions such as $\frac{1}{2}$, $\frac{1}{4}$, and $\frac{3}{4}$ to recognize common decimal equivalents.
- Provide a fraction strip or hundredths grid for students who need visual support.
- Challenge advanced students to explain how they knew each match without converting every fraction.
- Turn the activity into a partner game by having students quiz each other after completing the matching.
- Extend learning by asking students to order all matched fraction-decimal pairs from least to greatest.
