

Name _____

Table Tracker Answer Key

1. Forest Way
2. Lake Loop
3. Lake Loop, Hill Climb, Pine Path, River Run, Forest Way
4. >
5. <
6. >
7. River Run and Forest Way
8. Lake Loop

Teacher's Guide

- Review common fraction-decimal equivalents before students analyze the table.
- Encourage students to convert fractions to decimals to make comparisons easier.
- Provide a number line or fraction-decimal reference chart for students who need additional support.
- Have students explain how they determined the longest and shortest trails using mathematical evidence.
- Pair students to compare strategies for ordering the trail distances.
- Extend the activity by asking students to create a new data table with five mixed fraction and decimal measurements and write three comparison questions for a classmate.
