

Name _____

Race Rankings Answer Key

1. Hawks (18.68), Falcons (18.72), Wolves (18.75), Panthers (18.91), Tigers (19.05), Eagles (19.12)
2. Eagles (19.12), Tigers (19.05), Panthers (18.91), Wolves (18.75), Falcons (18.72), Hawks (18.68)
3. a. <
b. <
c. >
d. =
4. Hawks
5. Eagles
6. Falcons and Wolves
7. 18.68, 18.72, 18.75, 18.91

Teacher's Guide

- Remind students that a smaller race time means a faster finish.
- Encourage students to compare decimals one place value at a time before ranking.
- Provide a place value chart for students who need additional support comparing hundredths.
- Have students explain why 18.750 and 18.75 represent the same value.
- Ask partners to justify the first and last place teams using evidence from the table.
- Extend the activity by having students create a new data table with six decimal values and challenge a classmate to rank and compare them.
