

Name _____

Conjunction Makeover

Directions: Read the passage below. It mostly uses **coordinating conjunctions (FANBOYS)**. Your task is to **rewrite the passage by replacing each conjunction with a subordinating or correlative conjunction** that keeps the meaning clear but changes the style of the writing.

It was sunny, **and** we decided to go for a walk. We wanted to take the short path, **but** we chose the longer one. I carried water, **and** my friend carried snacks. We could stop at the playground, **or** we could keep walking to the lake. We were tired, **so** we sat under a tree to rest.

Extra Task: After rewriting, highlight one sentence and explain **why your new conjunction works better (or differently)** than the original.
