Teacher Notes:

- Total conjunctions used: **10**.
- Some blanks allow for multiple correct answers. Example:
 - Sentence 2 could also be filled with "although" instead of "but" (changes tone slightly).
 - Sentence 7 could be "although" instead of "yet."
- Encourage students to justify their choices by reading the sentence aloud with different conjunctions. This helps them hear how meaning shifts.
- For advanced learners: Remove the word bank entirely and let them fill in freely.
