Purpose Power-Up

What Is Purpose? Every prompt has a **purpose** - the reason it's written.

The purpose changes how the AI (or any writer) should respond:

To teach → gives facts, explains, or describes clearly.

To entertain → tells a story, uses imagination or humor.

To persuade → tries to convince or encourage action.

When your prompt clearly shows its purpose, the AI can match the right tone, structure, and detail to your goal.

Directions - Read each vague prompt below. Decide whether its purpose is **to teach, to entertain, or to persuade** and circle your choice. Then rewrite the prompt with added background information that fits that purpose.

1. Write about recycling.   **Purpose:** teach or entertain or persuade

Your Context-Packed Rewrite: _____

2. Tell a story about an adventure.   **Purpose:** teach or entertain or persuade

Your Context-Packed Rewrite: _____
