## AI Prompt Context Packing Rubric

Category	4 - Excellent (Context Fully Packed)	3 - Good (Mostly Clear)	2 - Needs Work (Some Missing Context)	1 - Weak (Little or No Context)
<b>Audience</b> Who is the response for?	Clearly identifies a specific audience (e.g., "for 5th graders," "for teachers," "for readers who love mysteries"). The AI would know exactly who to write for.	Audience is mentioned but not fully clear or specific.	Audience is hinted at but confusing or incomplete.	No audience given - AI has to guess who it's for.
<b>Purpose</b> Why is it being written?	Purpose is clear (to teach, to persuade, to entertain, to describe). The AI knows the goal of the task.	Purpose is somewhat clear but could be stated more directly.	Purpose is unclear or mixed.	No purpose given - AI doesn't know what the writer wants.
<b>Topic / Focus</b> What is it about?	Focused topic with clear direction or limits (e.g., "three reasons recycling helps cities").	Topic is clear but broad or general.	Topic is partly stated but vague.	Topic is missing or too general to guide a response.
<b>Tone / Style</b> How should it sound?	Tone or mood is clearly stated (e.g., "funny poem," "formal explanation," "friendly advice").	Tone is implied but not explicit.	Tone is confusing or doesn't match purpose.	No tone given - AI must choose randomly.
<b>Details / Limits</b> What specific instructions are given?	Includes specific requirements: length, examples, structure, or key points.	Some detail given but could be more specific.	Few details or unclear instructions.	No details or limits; very open-ended.
<b>Clarity and Completeness</b> Does it fully guide the AI?	Prompt is complete, precise, and easy to understand. No guessing needed.	Prompt is mostly clear but might leave one small question open.	Prompt includes several unclear areas.	Prompt is confusing or incomplete; AI would guess or produce off-topic results.
