## Spot the Difference

**Directions** - Each pair of prompts asks for the same general task - but one is *well-packed with context* and the other *needs more context*. **Underline** the exact words or phrases that make one prompt stronger or clearer. In the box below each pair, explain **why** those words help the AI give a better answer. (Hint: More words don't always mean more context.)

1. **A.** Write a short story with lots of interesting parts and some excitement in it that readers will enjoy.

**B.** Write a short story for 3rd graders about a shy dog who learns to make friends at the park.

Which one has better context? \_\_\_\_\_ Why? \_\_\_\_\_

2. **A.** Explain how volcanoes form and erupt for a 5th-grade science project using clear steps and examples.

**B.** Explain volcanoes in detail so that people can know about them completely.

Which one has better context? \_\_\_\_\_ Why? \_\_\_\_\_

3. **A.** Tell me about the planets in our solar system in a short, factual paragraph for a 6th-grade science report.

**B.** Tell me about outer space and include lots of good information about things in it.

Which one has better context? \_\_\_\_\_ Why? \_\_\_\_\_

4. **A.** Write a poem that sounds really good and has rhyming and emotions in it.

**B.** Write a short, funny rhyming poem for kids about how it feels when school starts again after summer break.

Which one has better context? \_\_\_\_\_ Why? \_\_\_\_\_

5. **A.** Make a list of ten rainforest animals and include one surprising fact about each one.

**B.** Make a list that shows animals and gives information about them so readers can learn more.

Which one has better context? \_\_\_\_\_ Why? \_\_\_\_\_

6. **A.** Describe your favorite food and make it sound good so people will understand how nice it is.

**B.** Describe your favorite food in a paragraph that uses sensory details and explains why it's special to you.

Which one has better context? \_\_\_\_\_ Why? \_\_\_\_\_
