

Name _____

Willy's Dilemma

Directions: Arthur Miller's play raises a timeless question: was Willy Loman's pursuit of success **noble** (a man striving for dignity and provision for his family) or **misguided** (a man blinded by illusions and false values)?

Write a well-structured essay that argues one side of this question. Use **at least two direct examples or quotes from the play** to support your position.

Handwriting practice lines for the essay response.
