

Name _____

Operation Match Answer Key

1. Operation: Add

Answer: 22.15 pages

2. Operation: Subtract

Answer: 10.75 m

3. Operation: Multiply

Answer: 7.5 L

4. Operation: Divide

Answer: 1.8 kg

5. Operation: Add

Answer: 16.35 kg

6. Operation: Subtract

Answer: 4.45 km

7. Operation: Multiply

Answer: 12.0 m

8. Operation: Divide

Answer: 1.2 L

Teacher's Guide

- Implementation tips
 - Have students identify clue words before solving each problem.
 - Ask students to state the operation aloud before performing any calculations.
- Differentiation strategies
 - Color-code the four operations on the board for students who need additional support.
 - Challenge advanced students to explain why the other three operations would not fit each problem.
- Engagement ideas
 - Have students sort the problem numbers into four categories by operation before solving.
 - Let partners compare their operation choices and justify their reasoning.
- Extension activities
 - Ask students to write one decimal word problem for each of the four operations.
 - Have students exchange their problems with a classmate, identify the operation, and solve them.
