

Decimal Match-Up Answer Key

1. E (7.15)
2. G (4.85)
3. C (7.50)
4. B (2.10)
5. D (9.55)
6. F (4.35)
7. A (6.00)
8. H (3.30)

Teacher's Guide

- Implementation tips
 - o Encourage students to solve every problem before matching to avoid guessing.
 - o Have students estimate each answer first to check whether the match is reasonable.
- Differentiation strategies
 - o Allow students to eliminate answer cards as they are used.
 - o Challenge advanced students to explain how they verified each match without relying only on the remaining choices.
- Engagement ideas
 - o Cut out the answer cards and let students physically match them to the problems.
 - o Have partners compare matches and explain any disagreements before checking answers.
- Extension activities
 - o Ask students to create four new decimal problems that match four new answer cards.
 - o Have students swap their matching puzzles with a classmate to solve.
