Quick Practice Questions

1. Red
2. On the map
3. A fish

Teacher Notes / Guide

- **Purpose:** This activity supports **decodable text fluency** by teaching students how to **blend individual phonemes** into complete words, then practice those words in context.
- **Implementation:** Start with Part A as a warm-up. Say each sound aloud with the group before having students attempt independently. Encourage choral repetition for hesitant readers.

Fluency Tip: During the passage, model a smooth, steady pace first. Then allow students to echo read, followed by independent practice.
