## The Mystery Backpack Answer Key

### Sample Response:

1. This person is probably curious, adventurous, and a little forgetful.

### 2. Traits:

- **Curious** – They're clearly interested in mysteries and unusual things (maps, newspaper clipping).
- **Creative** – They draw maps and symbols, suggesting imagination or maybe even storytelling.
- **Forgetful** – The expired granola bar and broken pencils show they don't always stay organized.

### 3. Sample Paragraph:

The owner of the backpack is probably someone who prefers adventures to everyday life. I imagine them with messy hair, eyes that are always scanning their surroundings, and ink stains on their fingers from drawing maps in the margins of every notebook they own. They might be the kind of person who forgets to eat lunch because they're too busy researching old local legends or decoding strange patterns they've seen on the bell tower. The compass in their bag isn't just for show—they trust it more than GPS. Whoever they are, they walk through the world like a puzzle waiting to be solved.
