## Emotions Through the Lens

**Objective:** Imagine each scenario as if you're looking through the lens of a camera. You've captured a **freeze-frame moment** in someone's life. Your mission is to write a **3–5 sentence paragraph** describing what the person in the picture is feeling - *without directly naming the emotion*. Show it through facial expressions, posture, movement, and setting.

Use **body language, sensory detail, and inner thoughts** to bring each scene to life.

Write what the girl might be feeling and how she shows it:

Write what the boy might be feeling and how he shows it:
