## Emotions Through the Lens Answer Key

### Top Image – Girl with hands on face, eyes closed

#### Sample Response:

She stood frozen, her hands gently pressed to her cheeks, eyes squeezed shut as if trying to block out the world. Her breathing came in short, shaky bursts. A lump was stuck in her throat, and her heart pounded as the memory of what just happened rushed back. She wished she could rewind time, even just a few seconds.

---

### Middle Image – Boy sitting cross-legged, arms crossed, frown on face

#### Sample Response:

He sat with his arms tightly crossed over his chest, his lips pursed in a hard line. His brow was furrowed, and he stared at the floor without blinking. Every movement around him seemed to bother him, but he refused to say a word. His legs stayed perfectly still, but the tapping of one foot betrayed the storm building inside him.

---

### Bottom Image – Girl jumping with arms up, smiling

#### Sample Response:

She bounced on her toes, fists punching the air like confetti was raining down. Her grin stretched so wide it almost hurt, and her eyes sparkled with excitement. She couldn't stop moving — one hop turned into two, and then a quick spin. Her laughter bubbled up like a song she couldn't hold in any longer.
