Describing Objects and Artifacts Answer Key

(Sample Responses)

These responses demonstrate appropriate detail and paraphrasing based on the provided text.

1. **Pocket Watch Description:**

A small, antique pocket watch with a gold case and a cream face that has cracked over time. The black Roman numerals are faded, and although the hands still move slightly, the watch no longer works. There's a personal engraving on the back from 1923.

2. **Clay Pot Description:**

A large, hand-made clay pot with a narrow top and wide body. It has ancient spiral carvings and traces of red and black paint. The brown color shows its age, and there is a chip on the rim.

3. **Leather Satchel Description:**

An old leather bag with cracked straps and a sagging body. It holds worn papers and smells faintly of tobacco and ink. The satchel appears to have been heavily used over many years.
