Museum Brochure Upgrade Project

Scenario: You've just been hired by the creative team at the "Timekeeper's Museum," which features historical artifacts from all over the world. Unfortunately, their brochure descriptions are *incredibly boring*. Your job is to **rewrite them** so they excite and engage museum visitors!

For each exhibit below, you'll find the original dull sentence. Rewrite it using **rich, descriptive language**. Use at least **three sensory details** (sight, sound, smell, touch, or even taste!) in each rewrite. Feel free to add similes, metaphors, and figurative touches as well.

Exhibit 1: The Compass

Original Sentence: This is an old compass used on ships.

Exhibit 2: The Leather Satchel

Original Sentence: This bag was used by someone a long time ago.

Exhibit 3: The Wooden Violin

Original Sentence: This is a wooden violin that someone used to play music.

Exhibit 4: The Scroll

Original Sentence: This scroll has writing on it.

Exhibit 5: The Candle Holder

Original Sentence: This candle holder was made of metal.
