Name _____

Literal to Evaluative Answer Key

1. **Literal** - The violin is directly stated in the text.
2. **Inferential** - Readers must reason that focusing on the music helped her overcome nerves.
3. **Evaluative** - Opinion-based, requiring judgment about values in performance.
4. **Inferential** - Involves connecting her preparation to her success (not directly stated word-for-word).
5. **Evaluative** - Expresses an opinion about broader ideas beyond the story.

Teacher Notes:

- This activity trains students to *choose the right type of question* for deeper engagement.
- Scenarios 2 & 4 are inferential but at slightly different levels: one about emotions, one about cause/effect.
- Evaluative questions (3 & 5) require personal reasoning and connect beyond the passage itself.
- Consider having students *rewrite each scenario as one of the other two question types* for enrichment.
