Question Stations Answer Key

Since this is a **question-writing activity**, student questions will vary. Below are **sample models** for evaluation and discussion:

- **Sample Literal Question & Answer**
  Question: What advice did Leila's coach give her?
  Answer: "Stay steady, don't rush, and save your strength."
- **Sample Inferential Question & Answer**
  Question: Why did Leila smile at the finish line?
  Answer: She felt proud that she reached her goal and proved her determination.
- **Sample Evaluative Question & Answer**
  Question: Do you think training or mental attitude was more important for Leila's success? Why?
  Answer: (Varies; acceptable answers could argue training gave her stamina, or mental attitude helped her push through nerves and fatigue.)

Teacher Notes:

- The emphasis is on **collaborative creation** of questions and peer-to-peer learning.
- Rotate groups so they both **write** and **answer** each type of question.
- Evaluative questions should be open-ended and allow multiple thoughtful answers.
- Use class discussion at the end to reinforce the difference between question types.
