4. loud

Teacher's Guide

- This worksheet develops fluency and vocabulary by having students identify **diphthong spelling patterns** within a connected, holiday-themed text. Encourage students to read aloud to better hear the vowel sounds.
- For students who need extra support, preview common diphthong words or provide a diphthong chart to reference while reading.
- To boost engagement, let students use different colors for each diphthong pattern. For example, one color for **oi**, another for **oy**, and so on.
- For extension, ask students to rewrite one sentence using different diphthong words or create their own short holiday-themed sentence that includes at least two diphthongs.
