1. coin
2. join
3. mouse
4. snow
5. toy
6. cloud
7. foul
8. boy
9. brain
10. cow

Teacher's Guide

- This activity supports recognition of **diphthong spelling patterns** by connecting sounds to meaning through simple clues. Encourage students to say the word aloud before writing the missing letters.
- Provide a small diphthong chart showing **oi, oy, ou, ow** for students who need visual reference. Allow them to tap out the sounds as they think.
- To increase engagement, let students read their completed words to a partner and check if the clues match the meaning. They can also illustrate one or two completed words.
- For extension, ask learners to create their own clue for a new diphthong word or write a short sentence using two of the completed words.
