

Name _____

Dividing Data

Directions: Use the data table to answer each question. Show your division work when needed.

Activity	Total Amount	Number of Groups
Paint used	18.0 L	6 classes
Hiking distance	42.0 km	7 days
Juice served	15.6 L	8 tables
Rope length	27.3 m	3 pieces
Bird seed	24.5 kg	5 feeders
Reading time	16.8 hr	6 weeks

1. How many liters of paint does each class receive?

2. What is the average distance hiked each day?

3. How many liters of juice does each table receive?

4. How long is each rope piece?

5. How many kilograms of bird seed does each feeder receive?

6. What is the average reading time each week?

7. Which activity has the greatest amount per group?

8. Which activity has the smallest amount per group?

9. Which two activities have the same quotient?
