

Name _____

Decimal Dividers Answer Key

1. 2.4
2. 2.4
3. 2.4
4. 2.5
5. 2.2
6. 2.1
7. 3.6
8. 9.1
9. 3.6
10. 6.5
11. 7.1
12. 7.1

Teacher's Guide

- Review where to place the decimal point in the quotient before students begin.
- Encourage students to estimate each quotient first to check if their final answer is reasonable.
- Provide graph paper or place value charts for students who need additional support with aligning digits.
- Pair students to compare answers and explain each step of the standard algorithm.
- Challenge early finishers to write a matching multiplication equation to verify each quotient.
- Remind students to check their work by multiplying the quotient by the divisor to see if they get the original dividend.
