Teacher's Guide

- **Objective:** Students demonstrate mastery of **do**, **does**, and **did** through recognition, correction, and emphasis-based application.
- **Differentiation Tips:**
 - Offer sentence stems (e.g., "She ___ every day") for students needing more structure.
 - Use color-coding for present (do/does) and past (did) forms on the board before the quiz.
- **Engagement Ideas:**
 - Turn Part A into a class poll: students vote by holding up color cards for A, B, or C.
 - Allow pairs to discuss their reasoning before finalizing answers for peer learning.
- **Extension Activities:**
 - Have students write three of their own quiz questions using all three verb forms.
 - Ask advanced learners to include an example of **do** or **did** used for emphasis in a short paragraph.
