

Name _____

Combining and Synthesizing Multiple Pieces of Information Answer Key

1. **Mia is likely working on a research project or personal study related to science.** She brings a notebook, reads biographies of scientists and astronauts, and asks to borrow extra books—all signs of focused research.
2. **David is quick-thinking, adaptable, and a team player.** He improvised lines when he forgot them, helped keep the scene going, was praised by his teacher, and stayed to help after rehearsal.
3. **Ava is motivated, community-minded, and shows leadership.** She created flyers, organized a drive, and spoke at a council meeting to take initiative when the program ended.
