

## Each And Every Dialogue Answer Key

1. each, each
2. each, every
3. each, every
4. every, each
5. each, each

### Teacher's Guide

#### Teaching Focus:

- Strengthens understanding of **each** (individual focus) vs. **every** (group or recurring action).
- Helps students practice determiners in real conversational contexts for natural language use.

#### Differentiation Tips:

- For struggling learners: Review the difference between **each** and **every** before starting, using simple examples.
- For advanced learners: Have them create new dialogues that correctly use both determiners at least twice.

#### Engagement Ideas:

- Turn the dialogues into short skits where pairs act them out after filling in the blanks.
- Encourage students to underline the determiners and explain why they fit in each situation.

#### Extension Activities:

- Have students write their own short conversation between two friends that includes at least four correct uses of **each** or **every**.
- Add a listening component: the teacher reads the dialogue aloud, and students write down which determiner belongs in each blank.
