### Teacher's Guide

#### Teaching Focus:

- This worksheet helps students distinguish between **each** (individual focus) and **every** (group or collective focus).
- Designed for Grades **3-4** with short, real-world sentences students can visualize easily.

#### Differentiation Tips:

- For struggling learners: Use visual aids (e.g., pictures of items or groups) to show "each apple" vs. "every apple."
- For advanced students: Challenge them to write two new sentences-one using "each" and one using "every."

#### Engagement Ideas:

- Have students act out short examples ("Each student gets a pencil" vs. "Every student stands up").
- Turn the worksheet into a mini competition where teams earn points for correct answers.

#### Extension Activities:

- Ask students to write a short paragraph about their morning routine using both **each** and **every** correctly.
- Introduce tricky examples showing both determiners in one context (e.g., "Each player on every team wore a jersey").
