

Name _____

Correcting Every Mistake Answer Key

1. Each of the students received a different topic for the science fair.
2. The teacher gave each of us a notebook for writing notes.
3. Each day of the week has a different schedule.
4. My coach talks to each player before the game begins.
5. Each of the puppies was sleeping in the basket.
6. We take each of our turns before the timer ends.
7. The librarian reminded each student to return their books.
8. Each one of the boxes contains a different surprise inside.
9. Mom checks each room and every window before leaving the house.
10. Every student in the class gets a chance to answer a question.

Teacher's Guide

Teaching Focus:

- Reinforces how **each** is used for individuals and **every** for groups or repeated actions.
- Students learn to spot grammatical mismatches with determiners and verbs.
- Ideal for Grades **5-6** as it strengthens sentence analysis and editing skills.

Differentiation Tips:

- For struggling learners: Review sample correct sentences before starting. Encourage identifying whether the sentence refers to *individuals* or a *whole group*.
- For advanced learners: Challenge them to write a paragraph using both **each** and **every** correctly, then trade papers with a peer to check for errors.

Engagement Ideas:

- Turn this into a "Grammar Detective" race where students compete to correct the sentences first.
- Encourage small-group discussion: have groups explain their reasoning for choosing **each** or **every**.
