## Green Clues

**Directions:** Read each short paragraph carefully. Then, match it to the best main idea or title from the list below. Write the letter of the correct main idea after each paragraph.

### Main Ideas:

- A. Protecting the Oceans
- B. Recycling Right
- C. Saving Energy at Home
- D. Trees: Nature's Helpers

1. Every time you turn off lights when leaving a room or unplug a charger that's not in use, you're helping the planet. These small actions reduce the amount of electricity we use every day. Less energy use means less pollution and cleaner air for everyone!

**Main Idea:** \_\_\_\_\_

2. Paper, cans, and bottles don't always need to go in the trash. Many items can be turned into something new through recycling. When we recycle correctly, we save natural resources and keep our land cleaner.

**Main Idea:** \_\_\_\_\_

3. Tall and leafy trees do much more than give us shade. They clean the air, provide homes for animals, and even help prevent soil from washing away in the rain. That's why planting trees on Earth Day makes such a big difference!

**Main Idea:** \_\_\_\_\_

4. From coral reefs to sandy beaches, the ocean is full of life that needs our protection. Throwing away trash properly and reducing plastic use can keep sea creatures safe and waters clean. Every choice we make helps the waves stay healthy!

**Main Idea:** \_\_\_\_\_
