

Name _____

Green Clues Answer Key

1. C - Saving Energy at Home
2. B - Recycling Right
3. D - Trees: Nature's Helpers
4. A - Protecting the Oceans

Teacher's Guide

Purpose: This worksheet strengthens students' ability to identify the **main idea** of a paragraph, an essential **reading comprehension** skill, while reinforcing environmental themes for Earth Day.

Teaching Tips:

- Read each paragraph aloud and model how to find **clue words** (like *energy, recycle, trees, or ocean*).
- Encourage students to highlight or underline words that hint at the topic.
- Discuss how main ideas differ from **supporting details**.

Differentiation Strategies:

- **Grades 2-3:** Provide visuals (e.g., a tree, recycling bin, ocean, light bulb) for matching.
- **Grades 4-5:** Ask students to justify their choice with one sentence explaining their reasoning.
- **Grades 6-8:** Have students write their own Earth-themed paragraph and create matching main idea titles.
- **Grades 9-12:** Integrate this activity into environmental essay writing or summarization practice.

Extension Idea: Use this as a warm-up for a broader lesson on **nonfiction text structure** and sustainability.
