### Teacher Notes/Guide

- **Target Errors:** Missing commas in lists and addresses, misplaced commas in direct address, missing punctuation in dialogue, missing end punctuation (question marks, exclamation points, periods), and missing titles formatting.
- **Instructional Strategy:** Encourage students to read each sentence aloud and pause naturally; commas often mark those pauses. Role-play dialogue aloud to highlight quotation mark placement.
- **Extension Idea:** Have students create their own "chat-style" dialogues and then swap with a partner to insert proper punctuation.
