## Clear It Up

**Directions:** Read the descriptive passage below. Some sentences are unclear or confusing. Identify the unclear parts and revise them to be precise, specific, and easy to understand. Rewrite the improved passage in the space provided.

The old train station was a weird place in the morning. Light came in from somewhere, making parts of the room bright and other parts dark. A noise echoed, but it was kind of hard to tell what it was. People moved around in a way that made everything seem busy, but it was not clear where they were going. The whole place felt strange, and it made me hurry.
