## Fable Scene Enhancer

**Directions:** Read each short fable scene. Each one is missing clear sensory details. Add at least two strong sensory details that help readers see, hear, smell, taste, or feel the scene more vividly. Write your improved version beneath each scene.

**Scene 1:** A young fox crept toward the orchard where the apples hung low on the branches. The orchard felt quiet as the fox looked for the ripest fruit.

**Scene 2:** A proud rooster stood on a fence at sunrise, ready to greet the day. He watched his farm wake up slowly.

**Scene 3:** Near a slow river, a thirsty lion approached the water's edge. The world around him seemed still as he prepared to drink.
