Teacher's Guide

- **Skill Focus:** Reinforces how **either** presents two possible choices, while **neither** expresses rejection of both. Encourages contextual reasoning rather than memorization.
- **Differentiation Tips:**
 - Read the story aloud and pause before each blank for students to predict answers orally.
 - For struggling learners, underline the two options in each sentence to highlight choice versus rejection.
- **Engagement Idea:** Ask students to dramatize the story in small groups, choosing when to say "either" or "neither" naturally in conversation.
- **Extension Activity:** Have students write a short paragraph about a day when they couldn't decide between two things, using **either** and **neither** at least once each.
